Education

Rosebank College

Diploma in Information Technology In Software Development

02/2023 – 12/2025 | Pretoria, South Africa

Skills

Programming

Java,C#,Kotlin,HTML,CSS,PHP

Database

MySQL,Oracle

Development Tools

Visual studio,Visual Studio Code,Android Studio

Projects

WPF Calculator

03/2025 – 03/2025

C#,WPF,XAML

- This application allows the users to enter any numbers and use common mathematical operations such as add,subtract,multiply and divide.
- It display the results as soon as the user hit an equal button.I used a simple design and made the application easy to use.
- This project helped me to enhance my skills in desktop application development using C# and XAML.

Weather Application

04/2025 – 04/2025

Kotlin, Android studio, XML, Openweather API

- The app lets users type in the name of a city and see the current weather for that place.
- It connects to the OpenWeatherMap API to show information like temperature, weather conditions like sunny or rainy, humidity, and wind speed.
- The app has a simple and easy-to-use design.
